Nelpoby Farms

Make a trip to eastern Kansas in your summer club calf travels. Located 1 hour southwest of Kansas City and 2.5 hours northeast of Wichita. Our powerful genetics include embryo calves out of Mimms cow 7063, Guyer's Whoopi 16Y, Dan Sullivan's Katie 491K, and Harietta's Hannah. Our program has built a great reputation over the past few years, including raising the high selling steer in a past Mid-Continent steer sale. Also visit Peine Brothers Show Calves and Graham Farms, Billy Graham. A select few of our calves will be consigned to the "Gleue Show Cattle Sale", located at LeRoy, Kansas, this October.
